GROUP

HISTORY

The company Meda Group , a family business, after the World War participated in the reconstruction of Italy.

Its experience, its know-how and the work quality enabled it to develop and acquire a national and international dimension.

PHILOSOPHY

Flexible and reactive, Meda has features which are typical for the large building companies nowadays (international organisation, permanent control, choice of the most suitable solutions, quality). Thanks to its Know-how, its technical and logistic capacities, Meda offers an all-around service to perform high level set standards also by continuous investments to increase the job specialization and professionalism of its labour. Meda cultivates tradition and modernism.
